

## Our Marine Construction Services

For high-quality [marine construction](#), Waterfront Construction & Design Inc. specializes in [boat docks](#)

,  
[piers and decks](#)

for your property. These docks stand up to the fiercest weather situations, and you can choose from floating and stationary varieties.

[Dock builders](#) at Waterfront Construction & Design Inc. have more than 20 years of experience, and they can assemble durable boat docks and decks that stand the test of time. Protect your priceless boat with floating, hydraulic and cable boat lifts, and beautify your dock with a custom-built boat house.

Hurricanes, flooding and erosion are destructive forces; however, Waterfront Construction & Design Inc. offers [shoreline stabilization](#) options such as retaining walls to safeguard your property. In fact, you can choose from fully functional and attractive options that improve the look and value of your land. Furthermore, you can add a pier or deck with a custom-built staircase to your waterfront property.

In addition, Waterfront Construction & Design Inc. can repair any damage on your existing boat dock or pier as well as improve upon your overall waterfront design. Whether you need a brand new boat dock, pier, deck or shoreline stabilization, Waterfront Construction & Design Inc. offers custom-built options that increase property value and protect your investments.
